Introduction

ELITE Innovation College Cambridge, UK

St Johns Innovation Centre, Cowley Road, Cambridge, UK, CB4 0WS

Organisations in the 21st century has been facing the strategic challenges as a result of the fast changing global business environment and competitions from business rivals. Strategic management of technology and innovation, and management of change therefore become key for both global business and global higher education.

Organizational and political leaders from the East and West also face different challenges in terms of delivering economic and environmental sustainability and economic recovery and maintaining social stability. Built upon the Vision and Mission of EICC and its ELITE Global Talent Programme, our Summer School Programme aims to explore the world, broaden the horizons, experience the British culture, know the holistic education, ELITE Talent Program, and experience the gluttonous feast of culture and art!

ELITE Innovation College Cambridge (EICC) is a British Educational Institution that provides undergraduate, postgraduate and research programmes with our co-branded academic partners, academic and executive education, workshops, conferences, and seminars in various subjects, locally, internationally, and globally, working with Partners in the United Kingdom, Asia, Africa North America and the Middle East.

We are privileged to be a strategic partner of United Nations Academic Impact (UNAI). Over a decade, we have been successfully organizing international conferences and forums with global universities, including Tsinghua University (CAMOT Conference 2014 Beijing) and University of Cambridge (CAMOT Conference 2016 Cambridge) and University of Law (University President Forum 2021 London) with university presidents, vice chancellors, deans, experts, scholars, government officials and doctoral candidates in the field of higher education participated in the events.

We are also honoured being a co-branded strategic partner with Trinity Western University (TWU) in Canada, and University of the West of Scotland (UWS) and University of Law (ULaw) and Canterbury Christ Church University (CCCU) in the United Kingdom and in the delivery of degree and non-degree undergraduate, postgraduate, and taught & research programmes in Cambridge, United Kingdom and Zhuhai, China

Introduction

Davis College (DC), Toledo, OH, USA
433 N Summit St Suite 202, Toledo, OH, 43604
(Accredited by Higher Learning Commission)

Davis College was founded in 1858. Over its 155 year existence the College has provided career education programs that have responded to the business and economic needs. In 2008, the College was honored as one of Ohio's best employers by the Ohio Chamber of Commerce. Our mission is to provide marketable skills that enhance the employability of our graduates. To assure the realization of our mission, the following educational purposes, in addition to our program objectives, have been established.

The General Education Core is an integral part of each associate degree program at Davis College. The purpose of the General Education Core is to impart common knowledge, cultivate critical thinking, and develop values needed by every educated person. The Business Core reflects the College's commitment to meeting the demands of the business community we serve and is an essential part of each associate degree program. The purpose of the Business Core is to develop character, teamwork, and professionalism valued by employers.

Co-Branded Programmes with EICC and Davis College

We offer holistic education with reframing Oxbridge model during and in the post COVID-19 era. We are proud of our co-branded name and structure O2O with INNOVATION and ENTREPRENEURSHIP between EICC and DC.

We carry forward the footprint, education ethos and quality regime of Davis College (DC), USA, with the strong features of education of innovation management, technology management, global entrepreneurship, and global leadership of ELITE Innovation College Cambridge (EICC), UK, when we deliver the co-branded structures. These structures, which are co-branded and consolidated with global academic recourses between DC, USA, and EICC, UK, for the enhancement of student's journey, are delivered via online and offline (O2O) mainly in Toledo, OH, USA/Cambridge, UK and in EICC ELITE Global Colleges. Students who successfully complete these programmes and courses will be awarded DC associate degree.

Training and Development Needs in Oil and Gas Industry

Despite major political upheaval over the past decade, the oil and gas industry remains a major economic force for the global economy.

The re-establishment of oil exploration and production remains a priority for government authorities, and while challenges continue with outages at various processing and port facilities, the development of a highly skilled workforce remains an important priority for the National Oil Corporations in terms of enhancing employee performance, engagement with employers and enhancing their career prospects, loyalty and job security

The Co-branded programmes will allow candidates, leaders, managers, innovators, entrepreneurs and students, to receive the final Associate Degrees Award from Davis College upon the successful completion of all the courses with access of extra resources and additional support from both EICC and Davis Colleges including:

Featured Support from the Co-branded Programmes

English Support

Intensive English Program Intensive English Program (I.E.P.) at Davis College is an in-class instructional intensive English language diploma designed to generally assist international students who are non-native speakers to improve all English language skills they need to succeed in their academic, professional, and social endeavours. If a student does not have the English skills to be successful in an associate degree program, students may enrol in an intensive English program. Students will be placed into the appropriate level course after an English placement exam. I.E.P. courses are eight weeks in length and there are 5 levels of courses. A certificate of completion will be received after successfully finishing Level 5 of the program. At that time, a student is eligible to enrol in the academic programs at Davis College.

Duration of the Programmes:

The duration of the programmes are flexible and may last for 6months, 9months or 12 months. Depending on the total number of credits achieved by students, students may receive certificate, diploma or Associate Degree.

Delivery Mode: Full time face to face / online

Intakes for 2022 - 2023

August 2022
November 2022
